

Pro/ENGINEER Wildfire 5.0 Update from Pro/ENGINEER Wildfire 4.0

Overview

Course Code TRN-2230-T

Course Length 1 Day

In this course, you will learn how to utilize the core functionality enhancements in Pro/ENGINEER Wildfire 5.0. First, you will become familiar with the enhancements to Sketcher, such as sketching datum features, parallelograms, and chamfers. Next, you will explore enhancements to Part mode, including creating trajectory ribs, point patterns, and the all-new resolve mode. You will also learn about new and enhanced Assembly capabilities such as the accessory window, the new explode interface, and enhancements to component repeat and restructure. Finally, you will examine the new ribbon interface for 2-D drawings, and review Sheetmetal enhancements such as patterning and mirroring wall features. At the end of each module, you will complete a skills assessment. The questions are used to help reinforce your understanding of the module topics and form the basis for review of any topics, if necessary.

Course Objectives

- Describe the Interface Enhancements for Pro/ENGINEER Wildfire 5.0
- Utilize the Sketcher Enhancements for Pro/ENGINEER Wildfire 5.0
- Utilize the Part Modeling Enhancements for Pro/ENGINEER Wildfire 5.0
- Utilize the Assembly Modeling Enhancements for Pro/ENGINEER Wildfire 5.0
- Resolve model failures in Pro/ENGINEER Wildfire 5.0
- Utilize the Drawing Enhancements for Pro/ENGINEER Wildfire 5.0
- Utilize the Sheetmetal Enhancements for Pro/ENGINEER Wildfire 5.0

Prerequisites

- Introduction to Pro/ENGINEER Wildfire 4.0 or equivalent experience.

Audience

- This course is intended for people who have already upgraded to Pro/ENGINEER Wildfire 5.0 from Pro/ENGINEER Wildfire 4.0.

Agenda

Day 1

Module	1	Interface Enhancements
Module	2	Sketcher Enhancements
Module	3	Part Modeling Enhancements
Module	4	Resolving Failures
Module	5	Assembly Enhancements
Module	6	Drawing Enhancements
Module	7	Sheetmetal Enhancements

Course Content

Module 1. Interface Enhancements

- i. New Skin and Screen Colors
- ii. Dashboard Updates
- iii. Floating Input Windows
- iv. Menu Manager Enhancements
- v. Viewing and Editing Model Properties
- vi. Insert Position Enhancements
- vii. Utilizing Undo and Redo Operations
- viii. Creating Layer States
- ix. Managing and Editing Appearances

Knowledge Check Questions

Module 2. Sketcher Enhancements

- i. Sketching Rectangles and Parallelograms
- ii. Sketching Ellipses
- iii. Sketching Chamfers
- iv. Thickening Edges
- v. Utilizing Constraints
- vi. Sketching with On-the-Fly Constraints
- vii. Sketching Geometry Datums
- viii. Locking Sketcher Entities
- ix. Sketcher Dimension Enhancements

Knowledge Check Questions

Module 3. Part Modeling Enhancements

- i. Lightweight Hole Display
- ii. Using Dynamic Edit
- iii. Creating Trajectory Ribs
- iv. Intersect at Surface Round Transition
- v. Creating Curvature Continuous Rounds
- vi. Using the Draft Analysis Option
- vii. Measuring Volume Enhancements
- viii. Creating Point Patterns
- ix. Direction Patterning with Multiple Direction Types
- x. Creating Axes from Coordinate Systems
- xi. Creating On-Surface Coordinate Systems
- xii. UDF Enhancements
- xiii. Creating UDFs Using On-Surface Coordinate Systems

Knowledge Check Questions

Module 4. Resolving Failures

- i. Understanding and Identifying Failures
- ii. Analyzing Geometry Failures
- iii. Analyzing Open Section Failures
- iv. Analyzing Missing Part References Failures
- v. Analyzing Missing Component Failures
- vi. Analyzing Missing Component Reference Failures
- vii. Analyzing Invalid Assembly Constraint Failures
- viii. Understanding Resolve Mode Tools
- ix. Recovering Models

Knowledge Check Questions

Module 5. Assembly Enhancements

- i. Generic Instance Enhancements
- ii. Assembly Feature Enhancements
- iii. Component Operation Enhancements
- iv. Repeating Component Placement
- v. Restructuring Assemblies
- vi. Utilizing the Accessory Window
- vii. Creating and Managing Explode States
- viii. Animating Explode States
- ix. Creating Explode Lines
- x. Simplified Representation Enhancements
- xi. Defining Simplified Reps using the Component Chooser
- xii. Envelope Enhancements
- xiii. Creating and Using an All Solid Surfaces Shrinkwrap Envelope
- xiv. Creating a Default Envelope Simplified Rep
- xv. Mechanism Enhancements
- xvi. Creating Generic Gear Connections
- xvii. Creating Dynamic Gear Connections
- xviii. Creating Belt Connections

Knowledge Check Questions

Module 6. Drawing Enhancements

- i. Understanding the Drawing Ribbon User Interface
- ii. Exploring Drawing Ribbon Commands
- iii. Utilizing the Drawing Tree
- iv. Managing Drawing Sheets
- v. Showing, Erasing, and Deleting Annotations
- vi. Dimension Enhancements
- vii. Detailing Enhancements
- viii. Printing Enhancements

Knowledge Check Questions

Module 7. Sheetmetal Enhancements

- i. Punch Form Enhancements
- ii. Utilizing Punch Model Annotations
- iii. Flatten Form Enhancements
- iv. Patterning Walls
- v. Mirroring Walls
- vi. Csys Follow Surface Option
- vii. Miscellaneous Wall Enhancements

Knowledge Check Questions
